- Game Tech: Unreal Engine 5 (C++ & Blueprints), Computer Graphics (OpenGL)
- Others: Figma, Expo, Git, SourceTree, Firebase, MongoDB

PROJECT

Hours Between (School module project)

Jan 2025 - April 2025

- Developed a 3D Platformer in Unreal Engine 5 and C++ as part of a team of 6, focusing on system stability and asset integration with Git for version control.
- Engineered a persistent save system and UI menus, managing game-state transitions.
- Integrated sound effects and self-produced background music for gameplay immersion.
- Game demo link [here](#).

PeerPrep (School module project)

Aug 2024 - Nov 2024

- Created a technical interview website to enable users to discuss and solve leetcode questions as a pair in real time. Coordinated in a team of 5 and the app was built using JavaScript, React, RabbitMQ and MongoDB, and deployed on Google Kubernetes Engine.

WORK EXPERIENCE

Software Intern, GoNetZero™

Mar 2024 - July 2024

- Implemented backend APIs in Golang and relevant test cases (test driven development) from scratch for beta software product, which became used for existing customers.
- Explored various Large Language Models in categorising text of various languages found in uploaded documents, to help businesses and their stakeholders track greenhouse gas emissions from Scopes 1 to 3.
- Created Excel spreadsheet leave-taking template to enhance overview of availability of manpower across teams in Singapore and Vietnam to ensure seamless coverage.

HR Intern, Sembcorp Industries Ltd

Jan 2024 - Feb 2024

- Assisted supervisor with data migration and validation using Excel, helping to identify company HR data discrepancies.
- Implemented a proof of concept for automating data validation when data migrating.

CO-CURRICULAR ACTIVITIES AND VOLUNTEERING

Electronic Music Lab (EML)

Aug 2022 - June 2025

- Facilitated weekly club activities as logistics-secretary in AY 23/24.
- Performed in club's annual flagship show (Omniverse) twice.

Japanese Studies Society (JSS)

Aug 2022 - June 2025

- Coordinated as a logistics member in the Japanese Cultural Festival 2023, a flagship event of JSS spreading Japanese cultural awareness and appreciation.
- Facilitated club activities, consisting of weekly sessions for entire academic year, as logistics head for Japanese Music Club in AY 23/24.

Others

- Volunteered weekly to mentor a pair of secondary school students by providing academic help for a month in AY 21/22 Sem 2.
